STAT

1. Attached, for your signature, is the Suttland agreement from the Acting Archivist as amended after discussion last week. The principal points of change are:

a. We have reduced the space from 40,000 cubic feet and altered the barrier accordingly.

b. Under "CIA will" 2., we added the phrase "or records requiring that degree of protection".

c. Under "CIA will" 10., changed 2 to 3 CIA people. GSA wants the number specified so they can keep track of the number of people they will have in their space from other agencies.

d. Final paragraph - Language about termination changed to give either agency the option of terminating the agreement. GSA claims they only want this option in case they have a pressing need for the space for some high priority requirement which they don't expect to get. They acknowledge the problems of eviction which essentially are that we can't move out until we have someplace to go. This is not the best arrangement in the world, but I think we can live with it until some alternative can be arranged.

2. Recommend your signature on both copies.
